Profile Summary

Recent Master's graduate in Computer Science with a strong foundation in computer networks and a growing passion for front-end development, software engineering, and machine learning. Experienced in working with various networking technologies, cloud fundamentals, and programming languages. Native in Persian and Turkish, fluent in English, and beginner-intermediate in Italian. Actively building projects on GitHub to strengthen skills in software development.

Skills

Programming: Python, C++, SQL, HTML, CSS, JavaScript
Frameworks/Tools: Flask, React (learning), Git, GitHub
Cloud & Networking: AWS Cloud Foundations, CCNA, Cisco Packet Tracer, Network+, MikroTik, MCSA, VMware, Linux
Languages: Persian (Native), Turkish (Native), English (Fluent, IELTS 7.5), Italian (A2)

Education

M.Sc. in Computer Science — Sapienza University of Rome (Expected July 2025)
B.Sc. in Computer Engineering — Shahid Madani Azarbaijan University, Tabriz, Iran

Experience

Computer Engineer — Saba Smart Systems, Tehran, Iran (2019 – 2022)
• Worked on networking infrastructure, systems setup, and IT operations.
• Involved in configuration and maintenance of Mikrotik and Cisco devices.

IT Consultant — ICT Guild Organization, Tabriz, Iran (2016 – 2017)
• Provided technical support and consultancy for small to medium businesses.
• Helped with network troubleshooting and hardware/software configuration.

Academic & Personal Projects

Event Manager Web App (Bachelor's Final Project)
• Built a full-stack web application for managing events using PHP, MySQL, HTML/CSS.
• Included features like event creation, registration, and user management.

GitHub Projects (in progress)
• Portfolio Website (Front-End, HTML/CSS/JavaScript)
• Image Classifier using Python and Scikit-learn
• Task Manager Web App using Flask and MongoDB
